

CATHALAC

RESEARCH & STUDY ABROAD PROGRAM PANAMA: Climate Change and Sustainable Development in Latin America and the Caribbean

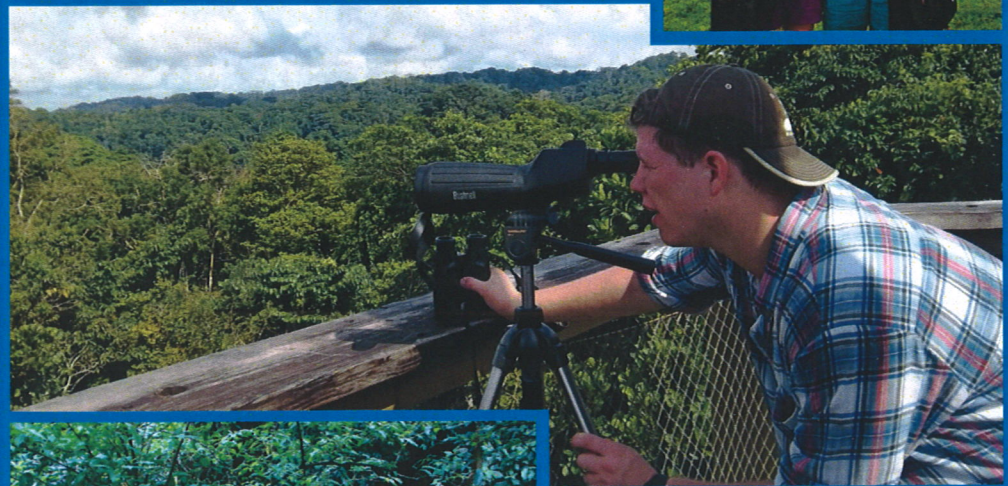

**Develop research skills, gain a
global perspective and
discover a unique culture!**

The University of Alabama in Huntsville and the Water Center for the Humid Tropics of Latin America and the Caribbean (CATHALAC) offer an eight week research and study abroad program focusing on environmental issues related to Climate Change and Sustainable Development. Through this unique educational program, now in its third year, participants will receive professional training, hands-on learning, and experience in how climate change influences sustainable development. While in Panama, students will conduct supervised research projects, learn Spanish, explore Panama and live with host families.

Academic Requirements

Applicants must have successfully completed at least two semesters of undergraduate work and have basic computer skills. Basic Spanish proficiency is a plus, but NOT required.

Course Credits

UAHuntsville and CATHALAC welcome students from all over the world to participate in the Program. Visiting students must apply and enroll through UAHuntsville and can receive six undergraduate credits that can be transferred to their home institution.

ESS 490 Selected Topics in Environmental Science

ESS 499 UAHuntsville Undergraduate Research Capstone

Application Deadline

March 26, 2012

**APPLY NOW
FOR SUMMER
2012!**

*** June 3-July 28, 2012 * 6 Undergraduate Credits * 8 Weeks**
