case of the water and wastewater infrastructure. Total length: 5,75 km, along 9 streets.

The main objectives of the Assignment shall be to assist the Client in implementing the Project, including but not limited to the activities below:

- i) assisting the Client for financial reporting to EBRD;
- ii) meeting reporting requirements specified in the EBRD loan contract and under the Works Contracts;
- iii) supervise the start-up of the PMMR / FIDIC contracts and train the Client's PMMR monitoring team. Ad hoc monitoring visits will be required during the five years of the PMMR maintenance period;
- iv) The Supervisor will also assist the Client in the administration of the works contracts (hereinafter referred to as the "FIDIC" and the "PMMR Contract") with due diligence and carry out the duties of the Supervisor assigned to him in the said Contracts;
- v) The Supervisor shall exercise his authority, as specified in or necessarily implied from the PMMR and FIDIC Contracts, to ensure timely, satisfactory completion of the Works in accordance with the abovementioned contracts.

#### Eligibility

The contract will be financed from the Loan Contract no. 41633, signed with the EBRD, and consulting firms from any state and regions are eligible for short listing and selection.

#### Information Required

The selection process for the current Assignment shall be carried out using the shortlisting procedure, in accordance with the EBRD's Procurement Policies and Rules, Section 5.4. Upon the submissions of the EOIs, a shortlist of 3 to 6 candidates will be selected, which on a second stage will submit their Formal Proposals based on the Terms of Reference.

In order to evaluate the Candidates' proposals, the EOI submitted should include the following information:

1. Company profile – history, minimum 5 years of experience, finished contracts in a very concise manner
2. Experience on similar projects – number of projects carried out in the last 10 years, projects' budgets, preferably financed through IFIs
3. The extent of local and regional experience on similar projects is a measure of how closely the consultants' experience matches the proposed consultancy services. Cooperation with local consultants is encouraged and may be essential given the requirement for relevant licences and experience of Romanian 'Law 10' covering construction. Past experience in co-operation with local consultants or implementing tasks similar to the assignment in the Country is an asset
4. CV's of the proposed team available for the current Assignment. A team of approximately 7 certified experts is recommended, including an Interpreter to ensure the communication with the Client. There will be an assessment of the Education/certifications received, degree of experience, general abilities to carry out the tasks under the Project.
5. Proof of financial stability, solvability and quality assurance, including a declaration according to which the candidate or any member of the Partnership is in process of bankruptcy.

The required information above shall not exceed 40 pages, including the CVs of the proposed team.
